

Dutch Design Database

Communication design / Exhibitions

Start date	: 28-06-2009	End date	: 31-01-2010
Country	: The Netherlands	City	: Breda
Location	: Graphic Design Museum		

Dutch Design Database is an exhibition and simultaneously a constantly developing database about the professionalisation of the design industry in The Netherlands since 1945.

By Editor Design.nl / 15-08-2009

Held at the Graphic Design Museum, Breda, Dutch Design Database is simultaneously an exhibition and a constantly developing database about the professionalisation of the design industry in The Netherlands since 1945.

The museum will be collecting digital images for research and presentation and contributing to the discussion around digital inheritance. Throughout the exhibition the visitor experiences the work, and the facts, numbers and developments of the industry in a physical manner. During the exhibition Dutch designers and design agencies can upload their work to the database: <http://data.dutchdesigndatabase.com>

Construction: Bas van Lier
Design: Niels Schrader and Erik Boldt
Programming: Stijn Kuipers and Marcel van der Drift

Photography: Tim Eshuis
